

Once upon a time,
there was a farmer.
Sometimes farmers cultivate paddy fields
and sometimes they cultivate dry land.

Cultivated dry lands are called '*hena*' (chena)

(C) Sumitha Publishers

Once, this farmer cultivated a chena.
Many kinds of vegetables were grown
and he looked after them with care.

There were potatoes,
sweet-potatoes, manioc,
pumpkins of all kinds,
sweet melons, golden cucumber,
maize, millet and egg-plants.
